

Renowned soil scientist

Jill Clapperton

Comes to Northeast Iowa!

Dr. Jill Clapperton is a world-renowned researcher, international lecturer and advocate of farm practices that promote soil health. She will share her research of new crops, rotations, and products that create healthy productive soils as well as new technology to help farmers assess soil fertility, plant nutrition, and soil microbial activity in real time. Workshop includes a tour of the Borlaug farm, in-depth presentations, hands-on activities and lunch. Farmers, technical advisers, and all interested in soil tilth should plan to attend. **Register by August 10!**

Soil Health Workshop

Norman Borlaug Heritage Foundation
